Example Site Sketch

Prepare a site sketch in the area below showing:

- Property boundary lines
- Existing building/structures (size & area, shape, distance from property lines)
- Proposed building/structures (size & area, height *if applicable*, shape, distance from property lines)
- Location of any driveways, watercourses, easements *if applicable*

Please note that "height" is defined in the Land Use Bylaw as "the vertical distance on a building between the grade and;

- the highest point of the roof surface or the parapet, whichever is the greater, of a flat roof; or
- the deckline of a mansard roof; or
- the mean level between eaves and ridges of a gabled, hip, gambrel or other type of pitched roof;

but shall not include any construction used as ornament or for the mechanical operation of the building, a mechanical penthouse, chimney, tower, cupola, or steeple."
